Education

University of St Andrews — *Scotland*

BSc Mathematics & Economics (Predicted 1st) — *Sep. 2024 – Jun. 2028*

- Relevant coursework: Linear Algebra, Multivariate Calculus, Probability & Statistics, Microeconomic Theory, Macroeconomics.
- Year abroad 2026/27: Bocconi University, Milan (Semester 1) and University of Hong Kong (Semester 2).

Imperial College London (via Coursera)

Mathematics for Machine Learning Specialization — *May 2026*

- 3-course specialisation: Linear Algebra (vectors, matrices, eigendecomposition, PageRank), Multivariate Calculus (gradients, optimisation, backpropagation), and PCA (dataset statistics, dimensionality reduction on MNIST).

Experience

ENODA — *Edinburgh*

Economics Analyst — *Jul. 2024 – Present*

- Promoted twice in two years (Intern → Assistant → Analyst); converted to full-time.
- Cut day-ahead energy price forecast error by **25% (RMSE)** against an autoregressive benchmark in the Polish wholesale electricity market, applying statistical techniques to noisy live market data.
- Validated and hardened a legacy R backtester: vectorised the codebase and removed redundant I/O to cut run time **98%** (50s to <1s), enabling faster model iteration and critique.

Bloomberg Decoded; McKinsey Tech & AI; Schroders Spring Insight — *London*

Spring Insight Programmes — *Spring 2026*

- Won 1st place in the Bloomberg Decoded EDA and Puzzle Challenges and the McKinsey Tech & AI case competition, across three selective spring programmes.

Elphinstone Capital Management — *St Andrews*

Founder & Head of Quantitative Research — *Jun. 2025 – Jun. 2026*

- Founded a UK-wide ML and trading student association, onboarding **20+ students** across **9 universities** onto a containerised research platform with standardised, reproducible workflows.
- Led **3-person team** to **top 11 / 1,000+** in the HKU x Avenir algorithmic trading competition with a cointegration-based strategy; ran live with **full P&L responsibility on $10K+ AUM**, holding drawdown **under 5%** through disciplined risk sizing.
- Won **Highest Trade Volume** at Imperial Algothon 2026 (IMC-sponsored) with an inventory-skewed market-making bot (Avellaneda-Stoikov-inspired) using time-decaying edge thresholds.

Mercury Capital Management — *St Andrews*

Team Head — *Sep. 2024 – Oct. 2025*

- Delivered **3 lectures** on model validation principles and risk management to **15 students**, framing how to critique and stress models before trusting their output.
- Ranked **1st across all cohorts** in the internal algorithm competition; produced the highest risk-adjusted returns in fund history with a rank-based arbitrage CNN and a custom loss function.
- Guided a **4-person team** to a **top 5%** finish in **IMC Prosperity 3** (**10,000+ participants**) with a market-making strategy using dynamic spread adjustment.

Castlecliffe Consultancy — *St Andrews*

Team Lead — *Jan. 2025 – May 2025*

- Led **5-analyst team** delivering EU/US macro and regulatory analysis to a US regional bank's Fixed Income desk; recommendations informed **$50M+** in capital allocation.
- Built econometric models behind portfolio positioning; client adopted **3 of 4** recommendations and synthesised outputs into client-ready briefings on a weekly cadence.

Playfair Consultancy Group — *St Andrews*

Consultant — *Sep. 2024 – May 2025*

- Narrowed **12 jurisdictions** to **3 priority markets** for a materials client via comparative regulatory and demand analysis, accelerating market entry by **6 months**.
- Found a **15%** supplier cost reduction through benchmarking, adopted in the client's partnership negotiations.

Projects

crypto-backtester-binance – Open-Source Backtesting Library — *Python, pytest, CI/CD, published on PyPI*

Founder & Maintainer

- Built an order management system simulating positions, balances, and trade history; pluggable position managers handle risk sizing, and permutation testing validates the statistical significance of returns (Sharpe ratio, drawdown, PnL).
- Published as an **open-source** library to PyPI with a full CI/CD pipeline; supports Binance spot and perpetual futures over cached historical OHLCV, trades, funding rates, and open interest.

Interests & Activities

Sports Tennis, Squash (Competitive), Muay Thai, Golf
Hobby Poetry, Psychology of Connection, Linguistics, Theory of Communications
