Education

University of St Andrews — *Scotland*

BSc Mathematics & Economics (Predicted 1st) — *Sep. 2024 – Jun. 2028*

Experience

ENODA — *Edinburgh*

Economics Analyst — *Jul. 2024 – Present*

- Promoted twice in two years (Intern → Assistant → Analyst); converted to full-time.
- Eliminated **10+ hours/week** of manual analyst work by automating ETL pipelines; team redirected freed time to client-facing analysis.
- Cut client report latency by **98%** (50s to <1s), unblocking same-day trading and dispatch decisions for energy desk.

Elphinstone Capital Management — *St Andrews*

Head of Quantitative Research — *Jun. 2025 – Present*

- Architected containerised research platform now used by **15+ analysts across 5 universities**; standardised workflows cut team onboarding from days to hours.
- Owned a live trading product end-to-end with **full P&L responsibility on $10K+ AUM**; ran incident response and rolling deployment for a 24/7 production system on Binance.

Castlecliffe Consultancy — *St Andrews*

Team Lead — *Jan. 2025 – May 2025*

- Informed **$50M+** capital allocation decisions for US regional bank's Fixed Income desk through EU/US macro research and regulatory analysis.
- Achieved **75%** recommendation adoption rate; client implemented 3 of 4 portfolio positioning strategies based on our econometric models.

Playfair Consultancy Group — *St Andrews*

Consultant — *Sep. 2024 – May 2025*

- Accelerated European market entry by **6 months** for sustainable materials client by identifying **3 priority markets** from 12 jurisdictions analysed.
- Enabled **15%** supplier cost reduction through cost benchmarking analysis adopted in client's partnership negotiations.

Projects & Leadership

Project Assistant – AI Productivity Platform — *Python, FastAPI, React, ChromaDB, Docker*

Creator

- Unified **6+ productivity platforms** (Microsoft 365, GitHub, Telegram, OneNote) into a single RAG-powered interface; eliminated context-switching for end users.
- Architected modular FastAPI backend (**15+ routers**) with React frontend and an AI action-approval workflow gating every automated change before it touches user data.

Project Paradise – Open-Source Backtesting Library — *Python, pytest, CI/CD, published on PyPI*

Founder & Maintainer

- Published an **open-source** quant backtesting library to PyPI with full CI/CD pipeline; modular engine computes Sharpe ratio, drawdown, and PnL metrics.
- Founded the supporting community from scratch; onboarded **20+ students**, wrote curriculum end-to-end, community is now self-sustaining.

Mercury Capital Management — *St Andrews*

Team Lead — *Sep. 2024 – Oct. 2025*

- Led **4-person team** to **top 5%** finish in IMC Global Trading Competition out of **10,000+ participants**.
- Placed **1st across all cohorts** in internal algorithm competition; delivered highest risk-adjusted returns in fund history.
