Education

University of St Andrews — *Scotland*

BSc (Hons) Mathematics & Economics (Predicted 2:1, 3.6/4.0 GPA equivalent) — *Sep. 2024 – Jun. 2028*

- Relevant coursework: **Econometrics**, **Probability & Statistics**, Linear Algebra, Multivariate Calculus, Microeconomic Theory.
- Year abroad 2026/27: **Bocconi University**, Milan (Sem. 1) and **University of Hong Kong** (Sem. 2).
- **Mathematics for Machine Learning** Specialization, Imperial College London via Coursera (May 2026).

Experience

ENODA — *Edinburgh*

Economics Analyst – Wholesale Power Markets — *Jul. 2024 – Aug. 2026*

- Forecast day-ahead prices in the **Polish wholesale electricity market**, cutting forecast error by **25% (RMSE)** versus an autoregressive benchmark; ran the models in real-time production on **GCP**.
- Reduced backtester run time by **98%** (50s to under 1s) by vectorising a legacy R codebase and removing redundant I/O, so more ideas could be tested per day.
- Built a market-sizing model across **4 European markets** and presented it to the CEO.
- Promoted twice in two years (Intern → Assistant → Analyst).

Castlecliffe Consultancy — *St Andrews*

Team Lead — *Jan. 2025 – May 2025*

- Led a **5-analyst team** delivering **EU/US macro and regulatory analysis** to a US regional bank's **Fixed Income desk**; recommendations informed **$50M+** in capital allocation decisions.
- Built the **econometric models** behind portfolio positioning ideas and iterated them in weekly client briefings; the client implemented **3 of 4** recommendations (**75%** adoption).

Elphinstone Capital Management — *St Andrews*

Founder & Head of Quantitative Research — *Jun. 2025 – Jun. 2026*

- Led a **3-person team** to the **top 11 of 1,000+** in the HKU x Avenir algorithmic trading competition with a **cointegration-based relative-value strategy**; traded it live with **full P&L responsibility on $10K+ of Avenir-allocated capital** and **under 5% drawdown**.
- Won **Highest Trade Volume** at Imperial Algothon 2026 (IMC-sponsored, 24h) with a market-making bot: inventory-skewed quotes and time-decaying edge thresholds.

Mercury Capital Management — *St Andrews*

Team Head — *Sep. 2024 – Oct. 2025*

- Led a **4-person team** to the **top 5%** of **IMC Prosperity 3** (**10,000+ participants**) with a market-making strategy using dynamic spread adjustment.
- Ranked **1st across all cohorts** in the internal algorithm competition, delivering the fund's **highest risk-adjusted returns** with a rank-based arbitrage CNN and a custom loss function.

Projects

crypto-backtester-binance – Open-Source Python Library — *PyPI · GitHub*

Founder & Maintainer — *Oct. 2025 – Present*

- Published to PyPI with CI/CD; Binance spot and **perpetual futures** with cached OHLCV, trades, **funding rates** and open interest, run through an order management system that simulates positions, balances and fills.
- Pluggable position managers handle risk sizing; **permutation testing** checks whether Sharpe, drawdown and PnL beat shuffled data before a strategy is trusted.

Skills & Certifications

Technical	Python (pandas, NumPy, statsmodels), Excel, R, SQL; time-series analysis, regression, cointegration and permutation testing, backtesting; Git, Docker, GCP
Markets	Bloomberg Terminal (Market Concepts and Finance Fundamentals certified, Mar. 2025): economic indicators, currencies, fixed income; relative value, market making
Languages	English, Russian, Ukrainian (native); German (conversational)
