Experience

ENODA

Edinburgh

Economics Analyst

Jul. 2024 – Present

- Promoted twice in two years (Intern → Assistant → Analyst); converted to full-time.
- Cut day-ahead energy price forecast error by **25% (RMSE)** against an autoregressive benchmark in the Polish wholesale electricity market, applying statistical techniques to noisy live market data.
- Validated and hardened a legacy R backtester: vectorised the codebase and removed redundant I/O to cut run time **98%** (50s to <1s), enabling faster model iteration and critique.
- Deployed forecasting models to run in real time on GCP; promoted twice in two years and converted to full-time.

Elphinstone Capital Management

St Andrews

Founder & Head of Quantitative Research

Jun. 2025 – Jun. 2026

- Founded a UK-wide ML and trading student association, onboarding **20+ students** across **9 universities** onto a containerised research platform with standardised, reproducible workflows.
- Led **3-person team** to **top 11 / 1,000+** in the HKU x Avenir algorithmic trading competition with a cointegration-based strategy; ran live with **full P&L responsibility on \$10K+ AUM**, holding drawdown **under 5%** through disciplined risk sizing.
- Won **Highest Trade Volume** at Imperial Algothon 2026 (IMC-sponsored) with an inventory-skewed market-making bot (Avellaneda-Stoikov-inspired) using time-decaying edge thresholds.

Mercury Capital Management

St Andrews

Team Head

Sep. 2024 – Oct. 2025

- Delivered **3 lectures** on model validation principles and risk management to **15 students**, framing how to critique and stress models before trusting their output.
- Ranked **1st across all cohorts** in the internal algorithm competition; produced the highest risk-adjusted returns in fund history with a rank-based arbitrage CNN and a custom loss function.
- Guided a **4-person team** to a **top 5%** finish in **IMC Prosperity 3 (10,000+ participants)** with a market-making strategy using dynamic spread adjustment.

Castlecliffe Consultancy

St Andrews

Team Lead

Jan. 2025 – May 2025

- Led **5-analyst team** delivering EU/US macro and regulatory analysis to a US regional bank's Fixed Income desk; recommendations informed **\$50M+** in capital allocation.
- Built econometric models behind portfolio positioning; client adopted **3 of 4** recommendations and synthesised outputs into client-ready briefings on a weekly cadence.

Playfair Consultancy Group

St Andrews

Consultant

Sep. 2024 – May 2025

- Narrowed **12 jurisdictions** to **3 priority markets** for a materials client via comparative regulatory and demand analysis, accelerating market entry by **6 months**.
- Found a **15%** supplier cost reduction through benchmarking, adopted in the client's partnership negotiations.

Competitions

2026	1st Place – Case Competition , McKinsey Tech & AI Event	London
2025	Top 11 / 1,000+ , HKU x Avenir WEB3 Algorithmic Trading Competition	
2025	Top 5% / 10,000+ , IMC Prosperity 3	
2024	1st Place (all cohorts) , Mercury Capital Algorithm Competition	
2026	1st Place – EDA Challenge , Bloomberg Decoded	London
2026	1st Place – Puzzle Challenge , Bloomberg Decoded	London
2026	Highest Trade Volume Award , Imperial Algothon 2026	London

Skills

Programming	Python, R, SQL; TypeScript / JavaScript; FastAPI, Docker, CI/CD, Git, PyPI publishing
Quantitative & Risk	Applied statistics, econometric modelling, forecasting, backtesting; VaR, Treynor ratio, Sharpe / drawdown, stress testing; permutation testing, model validation
Data & Tools	PowerBI, Plotly / Dash, Matplotlib / Seaborn, Excel, Bloomberg Terminal (BMC certified), AWS S3, GCP
Languages	English, Russian, Ukrainian (native); German (conversational); Hebrew (beginner)

Projects

Founder & Maintainer

- Built an order management system simulating positions, balances, and trade history; pluggable position managers handle risk sizing, and permutation testing validates the statistical significance of returns (Sharpe ratio, drawdown, PnL).
- Published as an **open-source** library to PyPI with a full CI/CD pipeline; supports Binance spot and perpetual futures over cached historical OHLCV, trades, funding rates, and open interest.

Education

University of St Andrews

Scotland

BSc Mathematics & Economics (Predicted 1st)

Sep. 2024 – Jun. 2028

- Relevant coursework: Linear Algebra, Multivariate Calculus, Probability & Statistics, Microeconomic Theory, Macroeconomics.
- Year abroad 2026/27: Bocconi University, Milan (Semester 1) and University of Hong Kong (Semester 2).

Imperial College London (via Coursera)

Mathematics for Machine Learning Specialization

May 2026

- 3-course specialisation: Linear Algebra (vectors, matrices, eigendecomposition, PageRank), Multivariate Calculus (gradients, optimisation, backpropagation), and PCA (dataset statistics, dimensionality reduction on MNIST).

Certifications

Coursera

Investment Risk Management

Feb. 2024

- Portfolio risk analysis using the Treynor ratio and Value at Risk (VaR); risk-to-reward quantification and loss estimation under normal market conditions.

J.P. Morgan via Forage

Quantitative Research Job Simulation

Jun. 2026

- Virtual experience covering natural gas commodity pricing, credit risk modelling in Python, and FICO score bucketing for a quant trading desk. Credential ID: LsyyNwoHaMNt4dkPz.

IBM via Coursera

Data Visualization with Python

May 2024

- Matplotlib, Seaborn, Folium, Plotly and Dash; built interactive dashboards including a Choropleth map and a recession-period automobile sales analysis. Credential ID: 3DGNGDYEW7X6.

Codecademy

Learn R

May 2025

- R fundamentals, data manipulation with dplyr and tidyr, descriptive statistics and hypothesis testing, and visualisation with ggplot2.

LinkedIn Learning

Excel for Corporate Finance Professionals

Feb. 2024

- WACC estimation, capital budgeting and project selection, scenario and stress testing, operational budgeting, and valuation in Excel; taught by Prof. Michael McDonald.

Bloomberg

Bloomberg Market Concepts (BMC)

Mar. 2025

- 8-hour certification covering economic indicators, currencies, fixed income, and equities via Bloomberg Terminal. Credential ID: Ph-nEH4PFzUXYCaWF3AyAkKH8.
